3.4.1	Hospital Facilities	39
3.5	Laboratories And Blood Banks	40
3.6	Health Finance	40

FOREWORD

The Palestinian Health Information Center continue issuing it is annual report, providing basic statistical data relating to various vital and health indicators on the health care sector in Palestine.

The Palestinian Health Information Center considered an important official and reliable source of information on current status and development of health care in Palestine.

I feel happy and proud presenting the 2010 annual report and hopes that all readers, decision makers, researchers, donors and reviewers will find it useful.

I feel happier also for the synchronization between the issuing of the report with the reports of the international community focusing on the achievements of the Palestinian Authority mentioning the improvement of health indicators over the last years.

Dr. Fathi Abumoghli

Minister of Health

No.	List of Annexes	Page
	Population (1- 4)	
1	Distribution of Estimated Population by Age Group and Sex, Palestine, 2010	42
2	Distribution of Estimated Population by Age Group and Sex, West Bank, Palestine, 2010	43
3	Distribution of Estimated Population by Age Group and Sex, Gaza Strip, Palestine, 2010	44
4	Reported Natural Increase of Population by Governorate, Palestine, 2010	45
	Live Births(5–10)	
5	Distribution of Reported Live Births and Stillbirths by Sex & Governorate, Palestine, 2010	46
6	Distribution of Percentage of Reported Live Births by Place of Delivery and Governorate, Palestine, 2010	47
7	Distribution of Percentage of Reported Newborn Weights by Sex & Governorate, Palestine, 2010	48
8	Distribution of the Relationship between Number of Children & Number of Mother's Years Education, West Bank, Palestine, 2010	49
9	Relationship Between Number of Children and Mother's Job, West Bank, Palestine, 2010	49
10	Distribution of Reported Live Births by Father's Job, West Bank, Palestine, 2010	49
	Mortality (11 – 33)	
11	Leading causes of Death among Infant by Sex and Region, Palestine, 2010	50
12	Reported Infant Deaths by Sex & Governorate, Palestine, 2010	51
13	Infants Mortality, Palestine, 2002 - 2007	52
14	Rate of Stillbirth per (1000), Palestine, 2002 - 2010	52
15	Leading Causes of Death Among Age Group 0-4 Years by Sex, Palestine, 2010	53
16	Leading Causes of Death Among Age Group 1 - 4 Years by Sex, Palestine, 2010	54
17	Leading Causes of Death Among Age Group 5 -19 Years by Sex, Palestine, 2010	55
18	Leading Causes of Death Among Age Group 20 - 59 Years by Sex, Palestine, 2010	56

19	Leading Causes of Death Among Age Group 60 Years and Above by Sex, Palestine, 2010	57
20	Leading Causes of Death among Population by Age Group and Sex, Palestine, 2010	58
21	Leading Causes of Death Among Population by Sex, Palestine, 2010	59
22	Leading Causes of Death Among Population by Age Group and Governorate, Palestine, 2010	60
23	Distribution of Deaths by Age Group , Palestine, 2010	61
24	Mortality by Age Group, Sex and Region, Palestine, 2010	62
25	Cancer Mortality by Site and Sex, Palestine, 2010	63
26	Reported Cancer Deaths by Sex & Governorate, Palestine, 2010	64
27	Leading Causes of Infectious Diseases Death by Age Group, Sex and Region, Palestine, 2010	65
28	Leading Causes of Cardiovascular Diseases Death by Sex & Region, Palestine, 2010	66
29	Distribution of Diabetes Mellitus (E10-E14) Death by Age Group, Sex and Region, Palestine, 2010	67
30	Distribution of Maternal Mortality by Death Time & Governorate, West Bank, Palestine 2010	68
31	Distribution of Maternal Mortality by Cause of Death & Age Group, Palestine, 2010	69
32	Distribution of Productive Age Women Deaths by Cause of Death & Age Group, West Bank, Palestine, 2010	70
33	Distribution of Productive Age Women Deaths by Age Group & Governorate, West Bank, Palestine, 2010	71
	Primary Health Care (34 - 37)	
34	Distribution of Governmental PHC Centers by Level and District, Palestine, 2010	72
35	Distribution of PHC centers by Governorate and Provider, Palestine, 2010	73
36	Distribution of Visits to PHC Clinics by Governorate, MOH, Palestine, 2010	74
37	Distribution of Visits to Specialized Clinics in PHC by Governorate and Type of Clinics, MOH, Palestine, 2010	75
	Mother Health (38 - 47)	
38	Distribution of MCH Activities in PHC Centers by activity & Governorate, West Bank, Palestine, 2010	76

39	Distrribution of Supplementation for Registered Pregarants in MCH & High Risk Pregnancy Centers by District & Type of Supplementation, West Bank, Palestine, 2010	77
40	Distrribution of High Risk Pregnancy Activities in MCH Centers by Type of Activity & District, West Bank, Palestine, 2010	78
41	Distribution of New High Riskancy Pregnancy Visits by cause of Referral , West Bank, Palestine, 2010	79
42	Distrribution of Anaemia between Benifeciars in MCH Centers , by Governorate and Type of , West Bank, 2010	80
43	Distribution of New Acceptors by Type of Contraceptve in MOH Family Planning Centers by District, Palestine, 2010	81
44	Distribution of Acceptors Contraceptve in MOH Family Planning Centers by Type & District, Palestine, 2010	82
45	Distribution of Ultrasound Reports by Results & District, West Bank, Palestine, 2010	83
46	Distribution of Beneficiaries of Papsmeer by Result & Governorate, West Bank, Palestine, 2010	84
47	Distribution of Beneficiaries of Mammography by Result & District, West Bank, Palestine, 2010	85
	Child Health(48 - 57)	
48	Distrribuion of Anaemia between Children Benifeciars in MCH Centers, By District, West Bank, Palestine, 2010	86
49	Distribution of Reported Morbidity & Disability Cases in MCH Clinics for Children 1-3 years by Type of Morbidity or Disability & District, West Bank, Palestine, 2010	87
50	Distrribution of Supplementation for Registered Children in MCH Centers by Type of Supplementation & District, West Bank, Palestine, 2010	88
51	Distrribution of Breast Feeding by District, West Bank, Palestine, 2010	89
52	Distribution of 1-3 years Child Growth Indicators by Indicator & District, West Bank, Palestine, 2010	90
53	Immunization Coverage by Type of Vaccine and Governorate, Palestine, 2010	91
54	Distribution of MCH Hanbook by Type & District, West Bank, Palestine, 2010	92
55	Distribution PKU Test by Health Directorate ,West Bank, Palestine, 2010	93
56	Distribution of MOH Clinics Appliyed IMCI Program by District, West Bank, Palestine, 2010	94
57	Distribution of Children Beneficiaries of IMCI Program by Medicine, Medical Diagnosis & District, West Bank, Palestine, 2010	95
	Mental Health (58 - 60)	
58	Distribution of New Reported Cases of Mental Disorder by Type of Disease & Governorate, Palestine, 2010	96

59	Distribution of New Reported Cases of Mental Disorder by Diagnosis & Region, Palestine, 2010	96
60	Distribution of New Reported Cases of Mental Disorder by Age groups, Sex and Type of Disease, West Bank, Palestine, 2010	97
	School Health (61 -73)	
61	Distribution of School Health Activities in 1st Grade of Governmental Schools by Type of Activity & District, Palestine, Scholastic Year 2009/ 2010	98
62	Distribution of Morbidity Among 7th Grade Pupils of Governmental School by Disease, Scholastic Year 2009/ 2010, Gaza Strip, Palestine	99
63	Distribution of Morbidity Among 10th Grade Pupils of Governmental school by disease, Scholastic Year 2009/ 2010, Gaza Strip, Palestine	99
64	Distribution of Morbidity Among 1st Grade Pupils of Governmental Schools by Disease and Region, Palestine, Scholastic Year 2009/ 2010	100
65	Distribution of Oral School Health Activities for 1st Grade Governmental School by Type of Activity and District, Palestine, Scholastic Year 2009/ 2010	101
66	Distribution of Oral School Health Activities in 1st Grade of Governmental Schools by Type of Activity & District, Palestine, scholastic Year 2009/ 2010	102
67	Distribution of Oral School Health Activities in 7th Grade of Governmental Schools by Type of Activity & District, Palestine, Scholastic Year 2009/ 2010	103
68	Distribution of Oral School Health Activities in 7th Grade of Governmental Schools by Type of Activity, Palestine, Scholastic Year 2009/ 2010	104
69	Distribution of Oral School Health Activities in 10th Grade of Governmental Schools by Type of Activity & District, Palestine, Scholastic Year 2009/ 2010	105
70	Distribution of Oral School Health Activities in 10th Grade of Governmental Schools by Type of Activity & District, Palestine, Scholastic Year 2009/ 2010	106
71	Distribution of School Health Immunization Activities by Type of Vaccine & District, Palestine, Scholastic Year 2009/ 2010	107
72	Distribution of Eye Health Activities Among Students of Governmental Schools by type of Cases & Disease, West Bank, Palestine, Scholastic year 2009/ 2010,	108
73	Distribution of Students Eye Conditions by Grade & District, West Bank, Palestine, Scholastic Year 2009/ 2010	109
	Dental Health (74)	
74	Distribution of MOH PHC Dental Clinics by Type of Activity & District, West Bank, Palestine, 2010	110
	Communicable diseases (75)	
75	Distribution of Reported Communicable Diseases by Disease and District, Palestine, 2010	111
	Sexual Transmitted Diseases (76 - 77)	
76	Reported Incidence Rate (New Cases) of Sexual Transmitted Diseases by Sex Based on Syndromic Diagnosis (per 100,000), Palestine, 2010 (per 100,000)	114

77	Reported Incidence Rate (New Cases) of STDs by Sex Based on Etiological Diagnosis (per 100,000), Palestine, 2010	114
	Road Accidents (78 - 85)	
78	Distribution of Car Accident by Age Group, Sex and District, West Bank, Palestine, 2010	115
79	Distribution of Car Accident by Age Group, Accident's Result and District, West Bank, Palestine, 2010	116
80	Distribution of Car Accident Injuries by Severity of Injury & District, West Bank, Palestine, 2010	117
81	Distribution of Car Accident Injuries by Age Group & Severity of Injury, West Bank, Palestine, 2010	117
82	Distribution of Car Accident by the Site Of Injury & District , West Bank, 2010	118
83	Distribution of Car Accident by Age Group & Site of Injuries, West Bank, Palestine, 2010	118
84	Distribution of Car Accident Injuries by Type of Injury & District, West Bank, Palestine, 2010	119
85	Distribution of Car Accident Injuries by Age group & Type of Injury, West Bank, Palestine, 2010	119
	Environment (86 - 92)	
86	Distribution of Food Samples by District, Palestine, 2010	120
87	Distribution of Tested Water Samples by District, Palestine , 2010	121
88	Distribution of Waste Disposal Inspection by District, Palestine, 2010	122
89	Distribution of Environmental Investigation for Established Private Institutions Applications by District, Palestine, 2010	123
90	Distribution of Existing & Licensing Trades and Industries by District, Palestine, 2010	124
91	Distribution of Environmental Investigations for Factory Applications by District, Palestine, 2010	125
92	Distribution of Pesticides for Vector Control by Type & District, Palestine, 2010	126
	Non Communicable diseases (93-105)	
93	Distribution of Reported Cancer Cases by sex & Governorate, West Bank, Palestine, 2010	127
94	Distribution of Reported Cancer Cases by sex ,Age group & Governorate, West Bank, Palestine, 2010	128
95	Distribution of Reported Cancer Cases According to Diagnosis, West Bank, Palestine, 2010	129

96	Distribution of Reported Cancer Cases by Age group and Sex, West Bank, Palestine, 2010	130
97	Distribution of Reported Cancer Cases by Age group and Sex & Diagnosis ,West Bank, Palestine, 2010	131
98	Distribution of Top Ten Reported Cancer, West Bank, Palestine, 2010	132
99	Distribution of Top ten Reported Cancer Among Females, West Bank, Palestine, 2010	133
100	Distribution of Top Ten Reported Cancer Among Males, West Bank, Palestine, 2010	134
101	Percentage of Top Reported Cancers from All Reported Cancers Cases By Year, West Bank, Palestine, 2000 - 2010	135
102	Distribution of New Registered Cases in PHC Diabetic clinics by District, Age Group and Sex, West Bank, Palestine, 2009 - 2010	136
103	Distribution of New Registered Cases in PHC Diabetic clinics by Age Group, Sex & District, West Bank, Palestine, 2010	137
104	Distribution of Reported Visits to PHC Diabetic Clinics by Type of Treatment, Complications, Age Group and Sex, West Bank, Palestine, 2010	138
105	Distribution of Reported Visits to PHC Diabetic Clinics by Type of Diabetes, Management and Sex, West Bank, Palestine, 2010	139
	Hospitals (106- 123)	
106	Distribution of Hospitals by Speciality, Sector, Total Beds & Governorate, Palestine, 2010	140
107	Distribution of Hospital Beds by Type of Hospital and Region, Palestine, 2010	141
108	Distribution of Hospitals and Beds by Sector, Palestine, 2010	141
109	Distribution of Hospitals and Total Beds by Governorate and Providers, Palestine, 2010	142
110	Distribution of Hospitals by Beds, Specialty & Governorate, Palestine, 2010	43
111	Distribution of Hospital Beds by Sector and Specialty, Palestine, 2010	143
112	Distribution of MOH Hospital Beds by Department and Region, Palestine, 2010	144
113	MOH Hospital Utilization by Hospital, Palestine, 2010	145
114	Reported Utilization of Governmental Psychiatric Hospitals by Region, Palestine, 2010	145
115	Utilization of Palestine Medical Complex by Ward, Ramallah, Palestine, 2010	146
116	Distribution of Out Patient Clinics Visits in MOH Hospitals by Specialty and Region, Palestine, 2010	147

117	Distribution of Dialysis in MOH Hospitals, Palestine, 2010	148
118	Distribution of Deliveries in MOH Hospitals by Type of Delivery & Hospital, Palestine, 2010	148
119	Distribution of Radiology in MOH Hospitals by Type and Region, Palestine, 2010	148
120	Jerusalem Hospitals Utilization by Hospital, Palestine, 2010	149
121	Rehabilitation Hospital Utilization by Hospital, Palestine, 2010	149
122	Non Governmental Hospitals Utilization by Hospital, West Bank, Palestine, 2010	150
123	Non Governmental Maternity Hospitals Utilization by Hospital, West Bank, Palestine, 2010	150
	Laboratories and Blood Banks (124 - 131)	
124	Distribution of MOH Lab Employees by Sex & Qualification, Palestine, 2010	151
125	MOH Lab Hospitals Activities, Palestine, 2010	152
126	Distribution of Lab Tests in MOH Hospitals by Category, Palestine 2010	153
127	PHC Laboratories Activity by District, MOH, Palestine, 2010	154
128	Distribution of Laboratory Tests Done in MOH PHC by Test Types & District, West Bank, Palestine, 2010	155
129	Distribution of MOH Lab Tests by Category, Provider and Region, Palestine, 2010	156
130	Blood Bank Activities in MOH Hospitals, Palestine, 2010	157
131	Distribution of Blood Bank Activites in MOH Hospitals by Type of Tests, Palestine, 2010	158
132	Distribution of National Blood Bank Activity by Month, West Bank, Palestine, 2010	159
133	Distribution of Samples Received to PHCL by Division, West Bank, Palestine, 2010	160
134	Distribution of Samples Tested in Chemistry Division in PHCL by Type & Result, West Bank, Palestine, 2010	161
135	Distribution of Drug Samples Tested in PHCL by Type, West Bank, Palestine, 2010	162
136	Distribution of Samples Tested in Microbiology Division in PHCL by Result, West Bank, Palestine 2010	163
137	Distribution of Sampiles Tested in Molecular Biology Division in PHCL by Type & Result, West Bank, Palestine, 2010	164

138	Distribution of Samples Tested in InImmunology & Infectious Diseases Division in PHCL by Type & Result, West Bank, Palestine, 2010	165
139	Distribution of PKU Samples Tested in Hormones & Enzymes Division in PHCL by Result, West Bank, Palestine 2010	166
140	Distribution of n-TSH Samples Tested in Hormones & Enzymes Division in PHCL by Result, West Bank, Palestine, 2010	167
141	Distribution of the Examinations and Free Thalassemia Certificates, West Bank, Palestine, July - Decembers 2010	168
	Human Resource (142-148)	
142	Development of Manpower in MOH During the Years (2007 - 2010), Palestine	169
143	Distribution of PHC Manpower by Health Directorate and Profession, Palestine, 2010	170
144	Distribution of Manpower in MOH Hospitals by Hospital, Palestine, 2010	171
145	Distribution of MOH Physician by District, Palestine,2010	172
146	Distribution of MOH Manpower (Administration and Services) by District, Region and Profession, Palestine, 2010	173
147	Distribution of Health Staff by Professionals & Region, Palestine 2010	174
148	Distribution of MOH Human Resources by Professional, Region & Place of Work, Palestine, 2010	175
	Medicine (149-156)	
149	Distribution of Registered Drug Products According to Companies (Local & Foreign), Palestine, 2010	176
150	Distribution of Registered Veterinary Products According to the Company, Palestine, 2010	177
151	Distribution of Registered Dietary Supplement/ Herbal Products According to Companies (Local/ Foreign), Palestine, 2010	178
152	Distribution of Registered Cosmetics Products According to Companies (Local/ Foreign), Palestine, 2010	179
153	Distribution of Permissions According to Row Materails, Cosmetics Products, Medicines (C29), Palestine, 2010	180
154	Distribution of Inspection Visits to Local Pharmaceutical & Cosmetic Manufactures by Type of Visit, Palestine, 2010	181
155	Distribution of Samples Tested by Drug Quality Central Dept. by Source of Sample & Test Result, Palestine, 2010	182
156	Distribution of Consumption of Dangerous Drugs in MOH & Private Sector, Palestine, 2010	183
	Disability (157 - 162)	

157	Distribution of Reported Disability Cases by Governorate in (Northern Governorate) West Bank, Palestine, 29/9/2000 -31/12/2010	184
158	Distribution of Reported Disability Cases by Site of Disability, WestBank, Palestine 29/9/2000 - 31/12/2010	185
159	Distribution of Reported Disability Cases by Type of Ammunition, WestBank, Palestine, 29/9/2000 - 31/12/2010	186
160	Distribution of Reported Disability Cases by Level of Disability, West Bank, Palestine, 29/9/2000 - 31/12/2010	187
161	Distribution of Reported Disability Cases by Sex, West Bank, Palestine, 29/9/2000 - 31/12/2010	188
162	Distribution of Reported Disability Cases by Age Group, West Bank, Palestine, 29/9/2000 - 31/2/12/2010	189
	Purchasing Health Services (163 - 168)	
163	Distribution of Treatment Abroad by Type of Referral, Palestine, 2010	190
164	Distribution of Treatment Abroad by Region and Sex, Palestine, 2010	190
165	Distribution of Treatment Abroad by Places of Referral, Palestine, 2009 & 2010	191
166	Distribution of Treatment Abroad by Source of Referral, Palestine, 2010	191
167	Number of Referral Cases by Main Medical Procedures & Cost, Palestine, 2010	192
168	Distribution of Number of Referral Cases by Cost & Governorates, Palestine, 2010	193
	Health Insurance (169-170)	
169	Distribution of Insured Families by Type of Insurance & Governorate, West Bank, Palestine, 2010	194
170	Distribution of Insured Families by Type of Insurance, Revenues and Region, Palestine 2010	195
	Licensing (171 - 172)	
171	Distribution of Licensed Private Health Services by District and Service, West Bank, Palestine, 2010	196
172	Distribution of Licensed Private Health Services by Service & District, West Bank , Palestine, 2010	197
	Health Projects (173-175)	
173	Distribution of MOH Hospital Projects, Palestine, 2010	198
174	Distribution of MOH PHC Projects, Palestine, 2010	201

175	Distribution of MOH Other Projects, Palestine, 2010	204
	Tenders (176)	
176	Distribution of Tenders, MOH, Palestine, 2010	206
	Expenditure (177)	
177	Distribution of Actual Expenditure for Ministry of Health, Palestine, 2010	207

Section 1: Demographic Trends

1.1 Population Size and Structure:

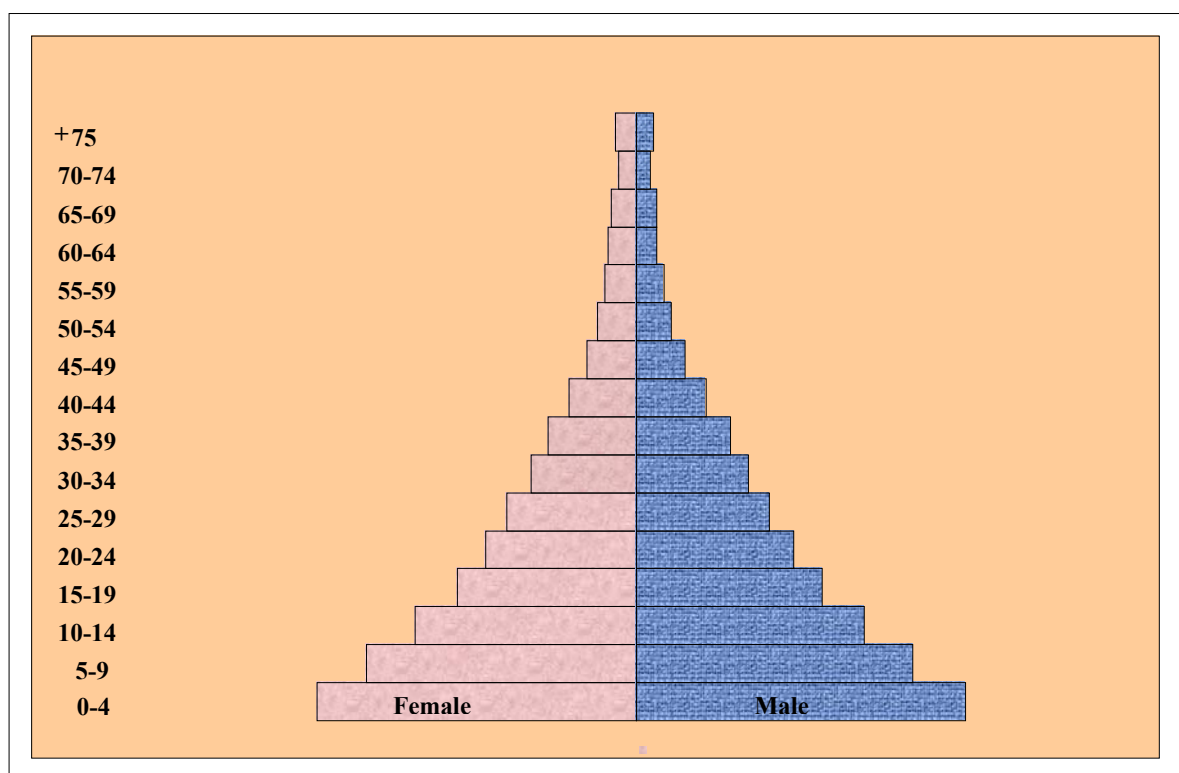

The total number of Palestinian people according to the estimation 2010 was (4,048,403) of which (50.8%) are males and (49.2%) are females.

1.1.1 Age and Sex Distribution:

Age distribution of the population has important implications for the health status of the population, due to the different health needs, the differential patterns of health care utilization and the different health status among the various age groups.

The below population pyramid shows age and sex distribution of population (41.1 %) is under 15 years old. The age group (0-4) years is (14.7%), while for the ages over 65 years constitutes only (2.9 %.)

Figure (1) Population by Age Group and Sex, Palestine, 2010

1.1.2 Dependency:

Dependency ratio is calculated as the number of persons below fifteen and above sixty-five per 100 person's aged 15-64 years. For 2010 the dependency ratio for Palestine is (78.7), (73.7) for West Bank, and (87.4) for Gaza Strip. This does not reflect the actual economic dependency because not everybody enrolled in the workforce (15-64 years) is actually earning (students, housewives and unemployed).

1.1.3 Population Growth:

According to the PCBS figures in 2010, the natural increase of population in Palestine was (2.9%), (2.7%) in West Bank and (3.3 %) in Gaza Strip.

1.2 Births:

1.2.1 Reported Live Births:

The total number of reported live births in Palestine was (125,587); (65,350) (52%) in west Bank and (60,237) (48%) in Gaza Strip.

1.2.2 Reported Crude Birth Rate:

Despite progressive decline over the years, the number of live births per 1,000 of population per year is still high compared with other countries. The Crude birth rat (CBR) in 2010 was (31 \ 1,000) of population in 2010, in West Bank (26\ 1,000) and (39.2 \ 1,000) in Gaza Strip.

1.2.3 Fertility:

Fertility data are based on a family survey that PCBS conducted the total fertility rate in Palestine was (4.2); (3.8) in West Bank and (4.9) in the Gaza Strip.

Section 2: Trends in Health Status

2.1 Reported Morbidity:

2.1.1 Communicable Diseases:

The control of communicable diseases plays a vital role in the achievement of “health for all”, a core principle of WHO policy. The tools needed for this task are available and well known. The great challenge facing the Mediterranean region today is to determine how best to use these tools and how to mobilize the resources needed to achieve this goal. Palestine succeeded in prevention of many fatal and disfiguring diseases as schistosomiasis, leprosy, diphtheria, plague, poliomyelitis, rabies, but is still working toward control of other infectious diseases, such as Meningococcal Meningitis, Brucellosis, HIV/AIDS, Hepatitis, Tuberculosis, Diarrhea, and Pneumonia. In spite of the successful control of many diseases through health education and vaccination, new diseases have emerged worldwide which have a negative impact on health status.

2.1.2 Vaccine Preventable Diseases:

Globally, at least 2 million people in all age groups die every year from diseases preventable by vaccines recommended by the WHO. Coverage levels of vaccines are considered one of the best indicators of health system performance and progress towards Millennium Development Goals. The target for the Palestinian health care system is that every child will receive a safe vaccine for each childhood vaccine-preventable disease. In Palestine, immunization coverage remains high. Based on the reports received from our preventive medicine department in PHC, the average coverage rates were more than (99%) for all vaccines, which directly impacts on the reduction in the incidence of vaccine preventable diseases.

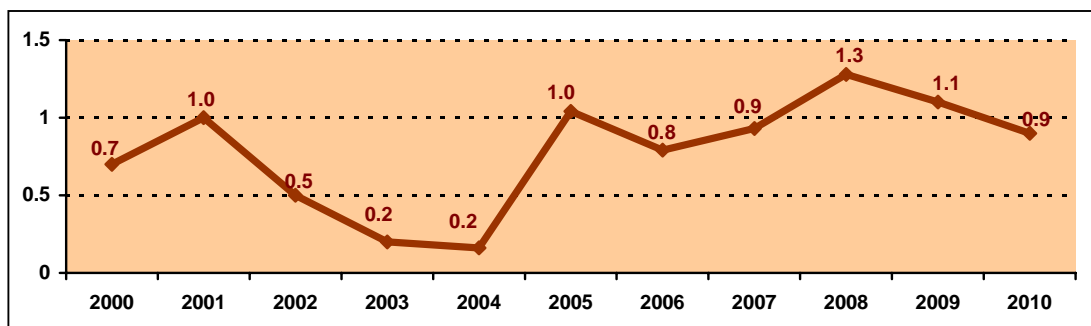

2.1.2.1 Poliomyelitis and Acute Flaccid Paralysis (AFP):

The Regional office for the Eastern Mediterranean Region (EMRO) of the World Health Organization (WHO) adopted a resolution to eliminate poliomyelitis from the region by 2000.

In Palestine this target had been achieved earlier, where the last reported case of polio among Palestinian children was in 1984.

Regarding to AFP, (15) cases were reported in Palestine in 2010 with an incidence rate of (0.9) per 100,000 children ≤ 15 years. Regional distribution showed that (4) cases were reported in Gaza Strip, and (11) cases reported in West Bank. All cases of AFP were free of Poliomyelitis.

Figure (2) Annual Reported Incidence Rate of Acute Flaccid Paralysis (per 100,000 Children ≤ 15 year), Palestine, 2000 – 2010

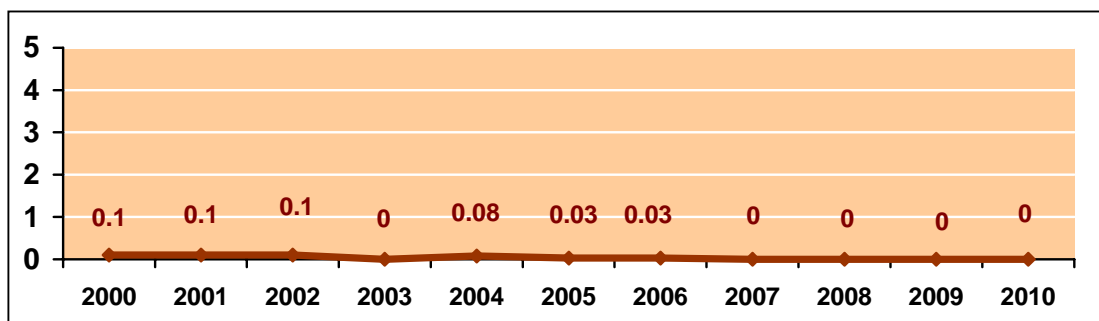

2.1.2.2 Measles:

Palestine considered one of the countries is about to achieve this goal of elimination of measles. The Incidence of measles still under control, approximately one to three cases reported yearly in the last several years.

In the year 2006, only one case was reported. While no reported cases in 2008, where one case was reported in Ramallah Governorate during 2009, and one cases reported in Jerusalem during 2010.

World Health Organization criteria for elimination of measles have been implemented in Palestine.

Figure (3) Annual Reported Incidence Rate (per 100,000) of Measles, Palestine, 2000 -2010

2.1.2.3 Tuberculosis:

In 2010 in Palestine, (17) cases of pulmonary tuberculosis were reported (7 cases in Gaza Strip and 10 cases in West Bank) with an incidence rate of (0.4) per 100,000.

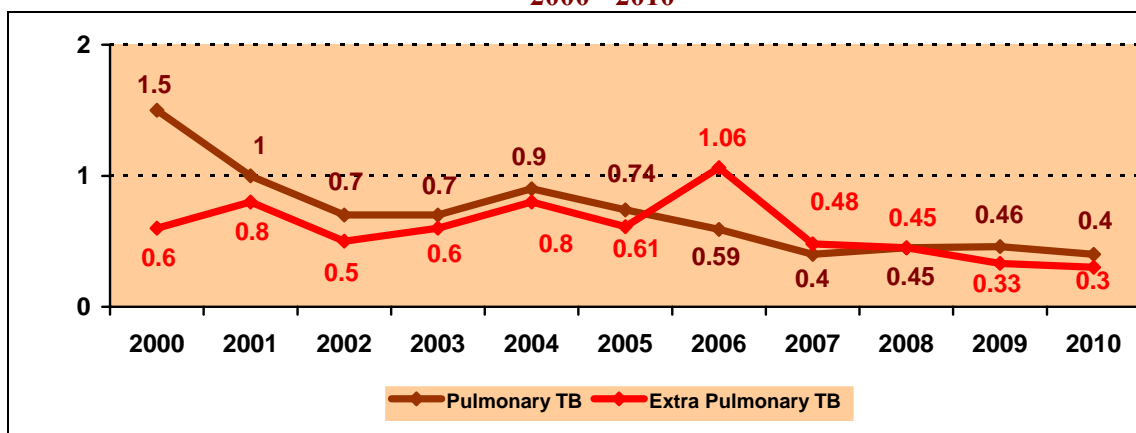

Plus (11) cases of extra pulmonary tuberculosis were reported in Palestine in 2010 (10 cases in Gaza Strip and only one case in West Bank) with an incidence rate of (0.3) per 100,000.

Vaccination coverage of BCG is very high in Palestine (about 100%).

In 2010 no reported deaths due to tuberculosis in Palestine.

Since 1996 the Palestinian MOH using DOTS approach in tuberculosis treatment.

Figure (4) Annual Reported Incidence Rate (per 100,000) of Tuberculosis, Palestine, 2000 - 2010

2.1.2.4 Tetanus:

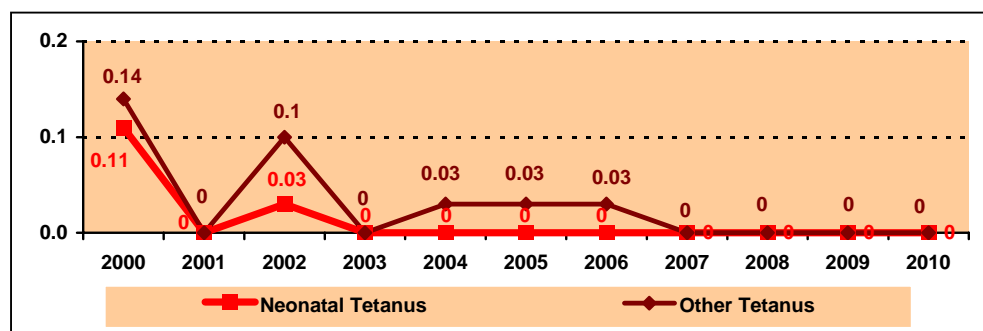

Tetanus, particularly the neonatal form, remains a significant public health problem worldwide particularly in densely populated regions.

In spite of that, there are no reported cases of neonatal tetanus in Palestine in the last eight years, which reflect the success of Ministry of Health (MOH) in the control and elimination of neonatal tetanus. In addition, MOH ensures high vaccination coverage among pregnant women.

Only one case of tetanus was reported in South Hebron during year 2009.

While during 2010 no case was reported.

Figure (5) Annual Reported Incidence Rate of Tetanus (per 100,000), Palestine, 2000 - 2010

2.1.2.5 Mumps:

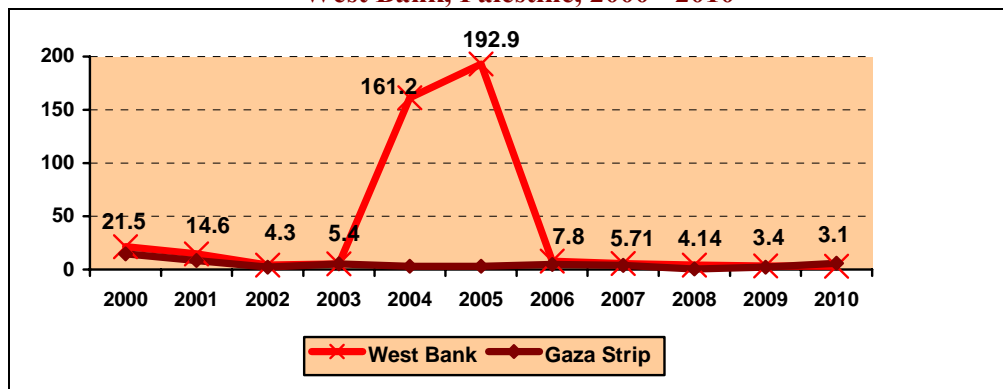

Since December 2003, there was a large outbreak of mumps in the Nablus Governorate that affected children, mainly below 15 years of age, of whom (72.9%) were previously immunized. In total, more than (4,000) children, both refugees and non-refugees, were affected. The outbreak reached its peak during April and May 2004, subsided thereafter, but spread out to other districts in the West Bank. The mumps outbreak was attributed to possible breakdowns in the public sector cold chain system due to frequent power cuts. In the year 2006, there was a notable decrease in reported cases of mumps in the West Bank, wherein (260) cases were reported with an incidence rate of (7.8 per 100,000) compared with (192.8 per 100,000) in the year 2005.

However, there was an increase of reported cases in the Gaza Strip reaching (69) cases with an incidence rate of (4.7 per 100,000) compared with (3 per 100,000) in the year 2005. In 2007, (190) cases were reported with an incidence rate of (5.05 per 100,000) of populations (134 cases in West Bank, 56 in Gaza Strip).

While in 2008, (105) cases were reported (97 cases of them in WB, 8 cases in GS). The incidence rate was (2.79 per 100,000) of population. In 2009, (118) cases were reported (84 of them in WB and 34 in GS) with an incidence rate (3 per 100,000) of population; (3.4) in WB and (2.3) in GS.

in 2010 (159) cases were reported in Palestine with incidence rate (4.2) per 100,000 of population, (70) cases in West Bank with an incidence rate (3.1) and (89) cases in Gaza Strip with with an incidence rate (5.8) per 100,000 of population.

Figure (6) Annual Reported Incidence Rate of Mumps (per 100,000), West Bank, Palestine, 2000 - 2010

2.1.2.6 Meningitis:

Meningitis can be caused by various sorts of viruses, bacteria, and even by fungi.

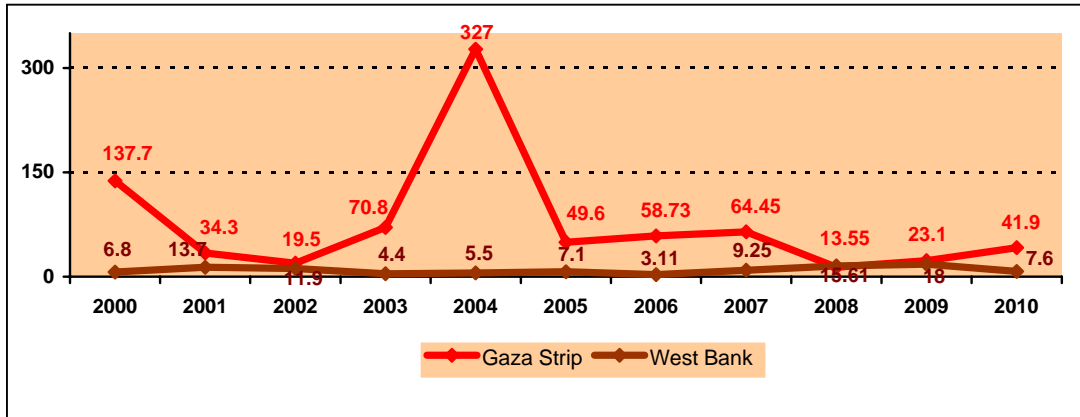

2.1.2.6.1 Viral (Aseptic) Meningitis:

Viral meningitis is rarely serious but requires supportive care. Viral meningitis is considered one of the endemic diseases in Palestine with some seasonal variation. The majorities of viral meningitis cases (more than 72%) are reported in spring and summer seasons.

In the year 2009 (783) cases were reported with an incidence rate of 19.9 per 100,000 of populations. (440) cases were reported in West Bank with an incidence rate (18) per 100,000 of population and (343) cases in Gaza Strip, with an incidence rate (23.1) per 100,000 of populations.

In 2010 (816) cases were reported in Palestine with an incidence rate (21.4) per 100,000 of population (173) Cases in the West Bank with an incidence rate (7.6) per 100,000 of population, and (643) case in Gaza Strip, with an incidence rate (41.9) Per 100,000 of population

Figure (7) Reported Incidence Rate of Viral (Aseptic) Meningitis by Region, Palestine 2000 - 2010

2.1.2.6.2 Bacterial Meningitis:

Bacterial meningitis is an important serious illness worldwide; it can be caused by a range of different bacteria: Haemophilus influenza type b, Neisseria meningitides, Streptococcus pneumoniae and other bacteria.

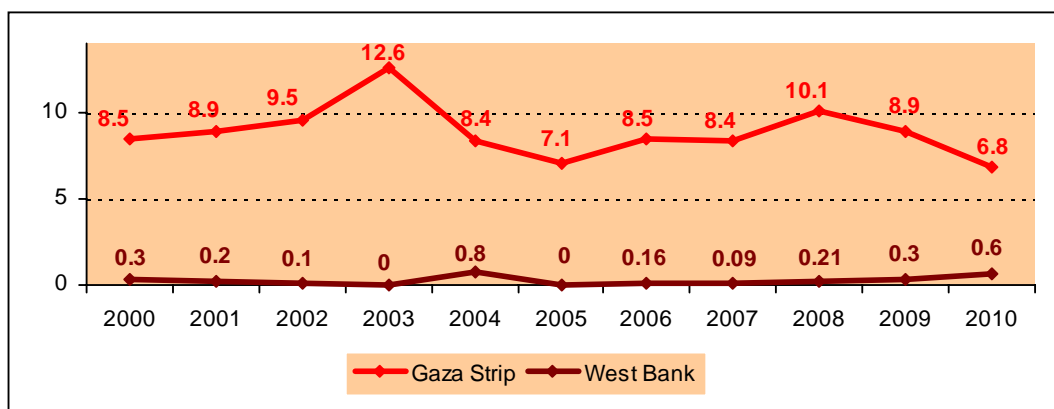

2.1.2.6.2.1 Meningococcal Disease:

Meningococcal disease remained a priority concern type of meningitis, because it is potentially fatal and should always be viewed as a medical emergency, which is caused by Neisseria meningitides.

Meningococcal meningitis is an endemic disease in Gaza Strip and sporadically reported in West Bank.

In the year 2009, (140) cases were reported with an incidence rate (3.6) per 100,000 of population, (8) cases were reported on the West Bank with an incidence rate (0.3) per 100,000 population and (132) cases reported in Gaza Strip with an incidence rate (8.9) per 100,000 of population. In the year 2010 (118) case were reported with an incidence rate (3.1) per 100,000 population, (14) cases in West Bank with an incidence rate (0.6) per 100,000 population and (104) cases in Gaza Strip with an incidence rate (6.8 per 100,000) population.

Figure (8) Annual Reported Incidence Rate of Meningococcal Disease (per 100,000), Gaza Strip and West Bank, Palestine, 2000 - 2010

2.1.2.6.2.2 Haemophilus Influenza Meningitis:

Infections caused by Haemophilus influenza type b (Hib), as meningitis are responsible for high morbidity and mortality among children worldwide.

In Palestine, during the past years, the incidence rate of Haemophilus influenza meningitis was constant and kept at the same average, one case was reported 2008 with an incidence rate of (0.03) per 100,000 of populations, were no cases reported in 2009.

No any reported cases in 2010 in Gaza Strip and (2) reported cases in West Bank (one in Jerusalem Governorate and the second in Ramallah Governorate) with an incidence rate (0.0).

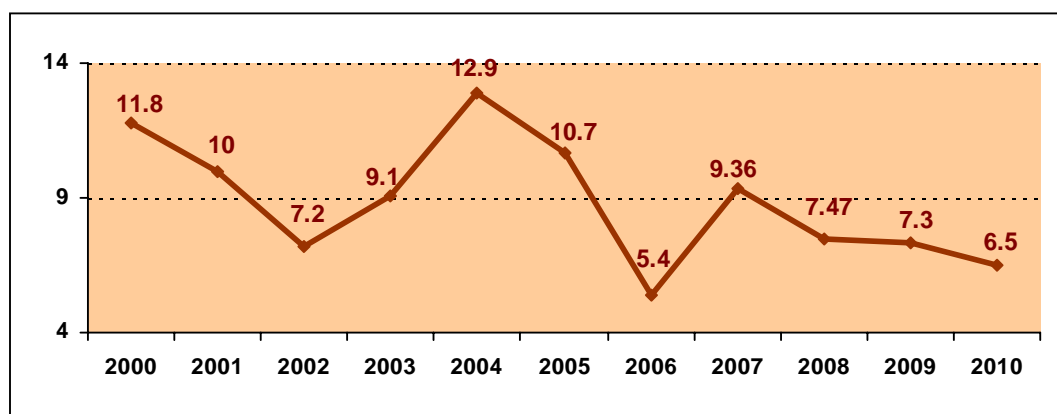

2.1.2.6.2.3 Other Bacterial Meningitis:

Other bacterial meningitis is caused by variety of bacterial infection; mainly Streptococcus pneumoniae.

In Palestine, the incidence rate in 2009 was (7.3) per 100,000 of population (289) cases was reported, (153) in West Bank, with an incidence rate of (6.2) per of 100,000 and (136) cases in Gaza Strip with an incidence rate of (9.1) per 100,000.

While (246) cases were reported in 2010 with an incidence rate (6.5) per 100,000 of population, (77) cases in West Bank, with an incidence rate of (3.4) per 100,000 and (169) reported cases in Gaza Strip with an incidence rate of (11.0) per 100,000 of population.

Figure (9) Annual Reported Incidence Rate of Other Bacterial Meningitis (per 100,000), Palestine, 2000 - 2010

2.1.2.7 Viral Hepatitis:

Viral hepatitis is one of the most serious health problems worldwide, with some variation from one type to another and from country to another. In Palestine, there are three types of diagnosed hepatitis: A, B, and C.

2.1.2.7.1 Hepatitis A Virus (HAV)

Hepatitis A is considered one of the most common diseases and the leading cause of acute viral hepatitis world wide.

Palestine as one of developing countries is still endemic for hepatitis A. A notable decrease in number of cases were reported in the year 2006 (2,044) cases with an incidence rate of (52) per 100,000 of population, compared with (3,199) cases with an incidence rate of (85) per 100,000 in 2005. The number of reported cases decreased to

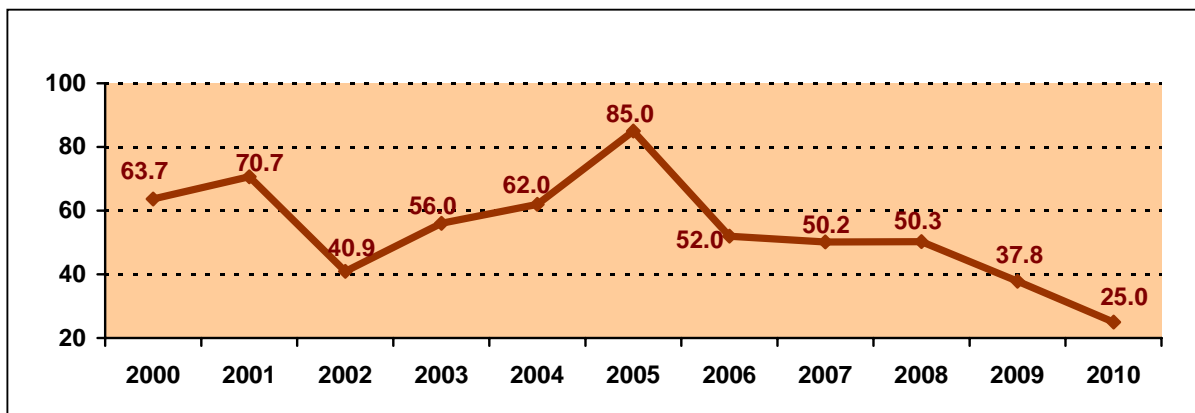

(1,893) cases in 2008 with an incidence rate of (50.32) per 100,000. (1,046) cases were reported in West Bank with an incidence rate of (44.6) per 100,000, and (847) cases were in the Gaza Strip with an incidence rate of (59.79) per 100,000 of populations.

In 2009 the total numbers of cases continue to decline up to (1,488) cases with an incidence rate of (37.8) per 100,000 of populations; (33.1) in West Bank and (45.6) in Gaza Strip.

In 2010 (952) cases was reported with an incidence rate of (25) per 100,000 of population; (633) cases in West Bank with an incidence rate of (27.8) and (319) reported cases in Gaza Strip with an incidence rate of (20.8).

Good personal hygiene and proper sanitation can help in prevention of hepatitis A. The majority of HAV infection still takes place in early childhood, where it is asymptomatic and of little clinical significance.

Figure (10) Annual Reported Incidence Rate of Hepatitis A Disease (per 100,000), Palestine, 2000 – 2010

2.1.2.7.2 Hepatitis B Virus (HBV):

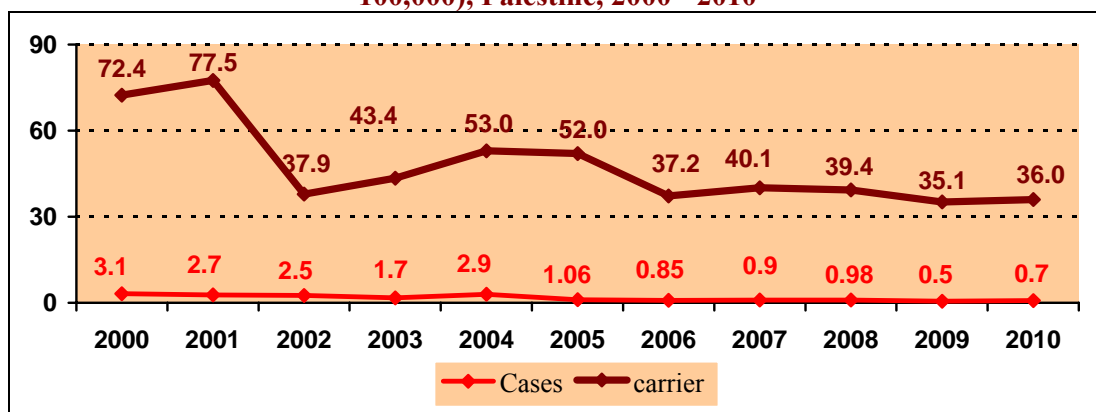

The Hepatitis B virus (HBV) infection is a major public health problem in the Middle East. The majority of the countries in the region have an intermediate or high endemic of HBV infection. Palestine is considered an intermediate endemic area of hepatitis B.

In the year 2008, there were (37) cases of hepatitis B reported with an incidence rate of (0.98) per 100,000 of populations, (31) cases out of them were reported in West Bank with an incidence rate of (1.32) per 100,000.

In 2009, 21 cases are reported in West Bank with incidence rate of (0.5) per 100,000 of populations, where no cases reported in Gaza Strip. In regards to hepatitis B carriers, (1,382) carriers were reported with an incidence rate of (35.1) per 100,000 of population, (41.9) per 100,000 in West Bank and (24) per 100,000 in Gaza Strip.

In 2010, only (27) cases were reported in West Bank with an Incidence rate of (1.2) per 100,000 of population and no reported cases in Gaza Strip. (1,373) carriers were reported in Palestine with an incidence rate of (36) per 100,000 of population, (966) out of them in West Bank with an incidence rate of (42.4) and (407) carriers in Gaza Strip with an incidence rate of (26.5).

Figure (11) Annual Reported Incidence Rate of Hepatitis B Cases and Carrier, (per 100,000), Palestine, 2000 - 2010

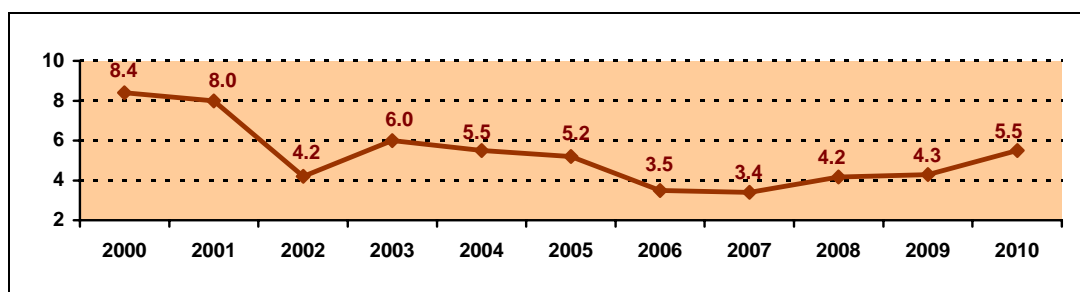

2.1.2.7.3 Hepatitis C Virus (HCV):

Surveillance of hepatitis C in Palestine started in 1994, but it needs more national attention.

Palestine still enjoys a low prevalence rate of HCV infection. In the year 2009 (2) cases of hepatitis C were reported in West bank with an incidence rate (0.1) per 100,000 of population, where no cases was reported in Gaza Strip and (166) hepatitis C carriers were reported with an incidence rate of (4.2) per 100,000, (122) carriers in West Bank with an incidence rate (5) and (44) carriers in GS with Bank with an incidence rate (3).

In 2010 (2) cases was reported in West Bank with an incidence rate (0.1) per 100,000 of population, no cases were reported in Gaza Strip, where (207) carriers were reported with an incidence rate (5.4) per 100,000 of population, (143) in West Bank with an incidence rate (6.3) and (64) in Gaza Strip with an incidence rate (4.2).

Figure (12) Annual Reported Incidence Rate of Hepatitis C Cases and Carriers (per 100,000), Palestine, 2000 – 2010

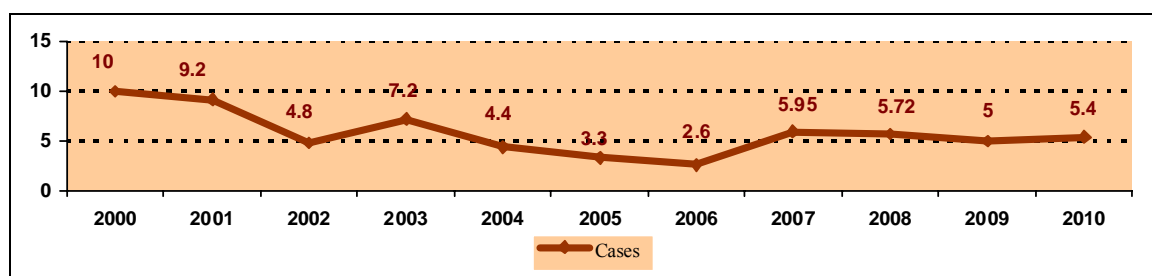

2.1.2.8 Human Brucellosis:

Brucellosis has been reported annually in Palestine since 1987, with a peak in 1990. Which was considered one of the highest incidence rate in Mediterranean countries until a brucellosis control program was implemented having a clear impact on the incidence rate of brucellosis and reducing its annual incidence rate to (2.6) per 100.000 of population in 2006 compared with (3.3) per 100,000 in 2005. Where in 2008, 215 reported cases with an incidence rate (5.72) per 100,000, (207) cases were in West Bank. In 2009, the total number of reported cases was declined up to (196) cases with an incidence rate (5) per

100,000 of populations, (194) cases were in West Bank with an incidence rate (7.9) and (2) cases in Gaza Strip with an incidence rate (0.1).

In 2010 the reported cases increases up to (205) cases with an incidence rate of (5.4) per 100,000 of population, (197) cases in West Bank with an incidence rate of (8.7) and (8) cases in Gaza Strip with an incidence rate of (0.5).

Figure (13) Annual Reported Incidence Rate of Human Brucellosis (Per 100,000), Palestine, 2000 - 2010

2.1.2.9 Acquired Immunodeficiency Syndrome (HIV/ AIDS):

The Mediterranean Region is no longer free from this global epidemic. Although the epidemic is still in its early stage in general, there are alarming signs of expansion in Palestine.

The cumulative reported cases from 1988 total (66) cases, out of which there were (51) AIDS cases and (15) HIV carriers.

Table (1) Distribution of Cumulative Number of HIV\ AIDS, Palestine, 1988 - 2010

Classification	Number	Percent
HIV (Carrier)	15	22.7
AIDS (Case)	51	77.3
Total	66	100

Table (2) Distribution of HIV/AIDS by Mode of Transmission, Palestine, 1988 - 2010

Mode of transmission	Number	Percent
Heterosexual	36	54.5
Homosexual	1	1.5
Blood\blood product	4	6.1
Injecting Drug use	3	4.5
Mother to child	1	1.5
Bisexual	3	4.5
Unknown	11	16.7
Others	7	10.5
Total	66	100

Table (3) Distribution of HIV/ AIDS by Sequel, Palestine, 1988 - 2009

Sequel	No	%
Dead	48	72.7
Alive	14	21.2
Unknown	4	6.1
Total	66	100

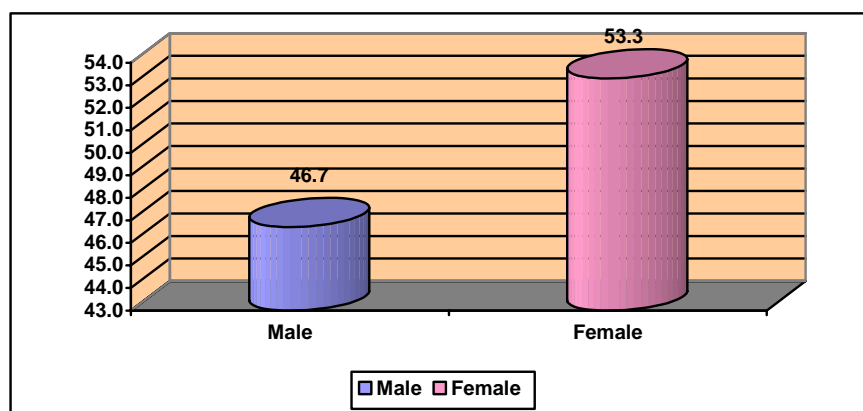

2.1.3 Non Communicable Diseases

2.1.3.1 Cancer:

In 2010 (1,350) new cancer cases were reported in West Bank, (719) cases out of them were females (53.3%) and (631) were males (46.7%).

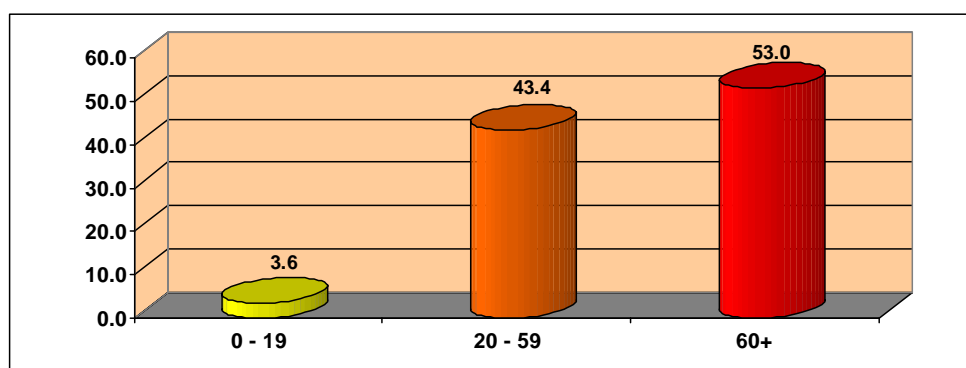

In 2010 the cancer incidence rate was (53.7) per 100,000 of population.

Figure (14) Distribution of Reported Cancer Cases by Sex, West Bank, Palestine, 2010

(715) cases out of reported cancer cases was over 60 years old which formed (53.0%) , where (586) cases (43.4%) of them between 20 - 59 and (49) cases (3.6%) were less than 20 years of age old.

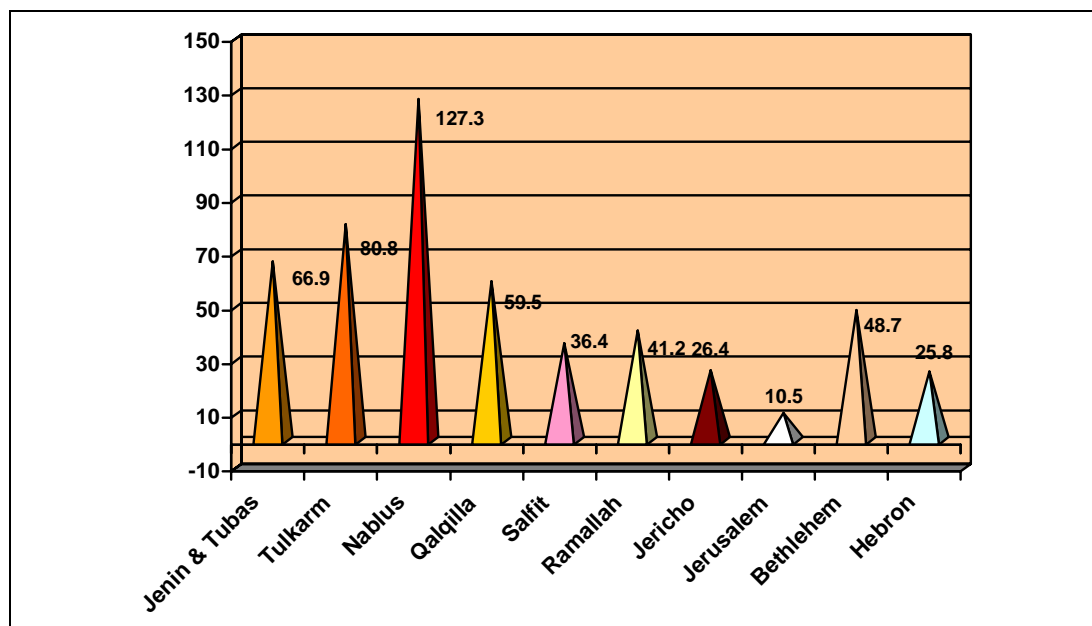

Figure (15) Distribution of Reported Cancer Cases by Age Group, West Bank, Palestine, 2010

2.1.3.1.1 Reported Cancer Cases by Governorate:

The geographical distribution of reported cancer cases shows that Nablus governorate reports the highest figures with an incidence rate (127.3) per 100,000 population (433) cases, while Tulkarm governorate ranked the second place with (134) cases and incidence rate (80.8) per 100,000 population. Jenin with Tubas in the third place with (220) reported cases and an incidence rate (66.9) per 100,000 of population.

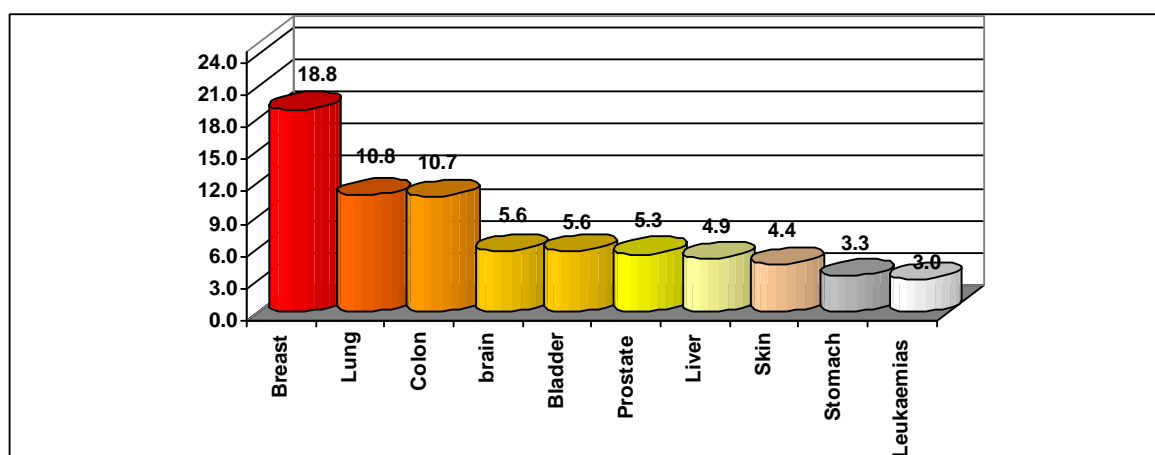

Figure (16) Distribution of Reported Cancer Cases Incidence Rate per 100,000 by Governorate, West Bank, Palestine, 2010

2.1.3.1.2 Most Common Cancer Cases:

Breast cancer ranked first, with (254) reported cases, (18.8%) from all reported cases. Breast cancer is the highest among females and focus in the age group between 20 -59. Where Lung cancer ranked second, with (146) reported cases and (10.8%) from all reported cancers. Lung cancer is the first type of cancer between males with (109) cases (17.3%) and the fourth one among females with (37) cases (5.1%), lung cancer focus in the age group of 60 and over. Colon cancer was in third place according to reported figures, with (145) reported cases (10.7%), of the all reported cases. Colon cancer was in the second place among females and males. Brain(5.6%), Bladder(5.6%), Prostate(5.3%), Liver(4.9%), Skin(4.4%), Stomach (3.3%), Thyroid (3.0%) & Leukemia's (3.0%).

Figure (17) Most Common Cancer Cases, West Bank, Palestine, 2010

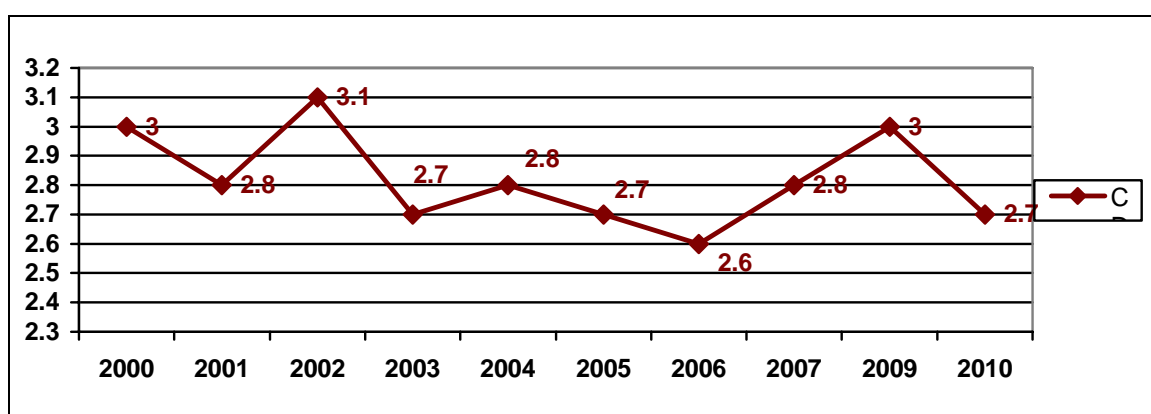

2.2 Reported Mortality:

In 2010, the total number of reported deaths in Palestine was (10,733); (5,660) males and (5,073) females, (6,757) out of them were in West Bank (3,563) males and (3,194) females, (3,967) deaths reported in Gaza Strip (2,097) males and (1,879) females.

2.2.1 Crude death rate (CDR):

According to PHIC figures, the crude death rate declines progressively over the years. The crude death rate for Palestine declined from (3.0) per 1,000 of population in 2000 to (2.7) per 1,000 of population in 2010. In Gaza Strip the crude death rate reached (2.6) per 1,000 of population in 2010, while in West Bank the crude death rate reached (2.7) per 1,000 of population in 2010.

Figure (18) Reported Crude Death Rate, Palestine, 2010

2.2.2 Infant Mortality:

In 2010, the reported infant mortality rate in West Bank was (14.0) per 1,000 live birth, while there is no data available from Gaza Strip.

2.2.3 Leading Cause of Death:

In 2010, the 10th leading cause of deaths in West Bank was as following:

1- Cardiovascular disease (25.4%)

- 2- Cerebrovascular diseases (12.1%)
- 3- Cancer deaths (10.8%)
- 4- Respiratory system diseases (8.4%)
- 5- Conditions of infant diseases and prenatal conditions (7.3%)
- 6- Diabetes mellitus (5.7%)
- 7- Senility (3.9)
- 8- Renal failure (3.8%)
- 9- Infectious disease (3.5%)
- 10- Septicemia (3.4%)

2.2.4 Cancer Mortality:

The reported figures by MOH shows a slight increase in Cancer mortality in West Bank 2010 compared with 2007, from (10.3%) to (10.8 %) from the total deaths in West Bank. Lung cancer was the highest one; it was (17.9 %), Colo-rectal and Breast Cancer (11.3%). Cancer mortality in males is higher than in females (51.2%) and (48.8%).

2.2.5 Maternal mortality:

Maternal mortality rate in West Bank in 2009 was (38/ 100,000 live birth) this rate decreased to reach (32/ 100,000 live birth) in 2010. The Pulmonary embolism was the main cause in these deaths.

Section 3: Health

The four main health providers of health services in Palestine are Ministry of health, UNRWA, and NGOs and Private for profit. MOH bears the heaviest burden, as it has the responsibility. In the Gaza Strip, there are (59) primary health care centers and in the West bank, there are (394) primary health care centers. The health services are distributed throughout Palestine. In addition MOH provides a number of specific health programs as: health education/community involvement, school health, immunization, human resources development, and referral of patients to non – MOH facilities (when services are not available in governmental facilities). UNRWA operates (18) primary health care centers scattered in eight refugee camps in the Gaza Strip and (41) centers in the West Bank. The NGOs sector operates (194) primary health care centers and general clinics, (57) of them in Gaza Strip, and in the West Bank they operate (137) primary health care centers.

3.1 Health services

3.1.1 Health Services Providers:

In the Gaza strip, there are (134) primary health centers run by three main providers:

- 1-Government: (59) primary health care centers.
- 2- UNRWA: (18) primary health care centers.
- 3- NGOs: (57) primary health care centers.

In the West Bank there are (572) primary health centers run by three main providers:

- 1- Government: (394) primary health care centers.
- 2- UNRWA: (41) primary health care centers.
- 3- NGOs: (137) primary health care centers.

In the West Bank there are (559) primary health centers run by three main providers:

- 4- Government: (381) primary health care centers.
- 5- UNRWA: (41) primary health care centers.
- 6- NGOs: (137) primary health care centers.

3.2 Manpower:

Table (4) Distribution of Medical Professions in MOH, Palestine, 2010

	West Bank	Gaza Strip	Total
General Physician	653	1,567	2,220
Specialist Physician	310	594	904
Dentist	47	238	285
Nurse	1,975	1,597	3,572
Paramedical	752	759	1,511
Total	3,737	4,755	8,492
Administration	2,117	3,314	5,431
Grand total	5,854	8,069	13,923

3.3 Woman and Child health:

3.3.1 Family planning (FP):

MOH reported figures; shows that the main contraceptive method used in Palestine in 2010 between the new beneficiaries was IUDs with total of (6,996) women used it with percentage (36.6%); (31.3%) in Gaza Strip and (39.8%) in West Bank, where (5,662) women used Pills with percentage of (29.7%); (26.7%) in Gaza Strip and (31.4%) in West Bank.

Figure (19) Distribution of New Beneficiary Used Pills and IUDs by District, Palestine, 2010

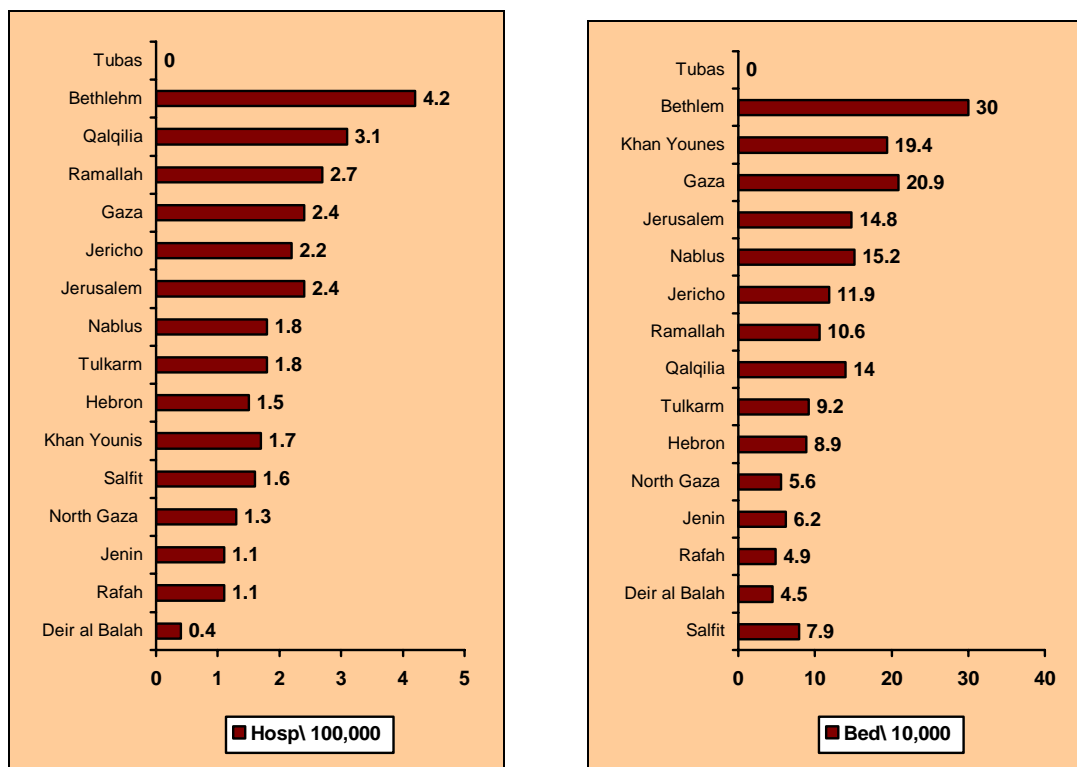

3.4 Secondary and Tertiary Health Care:

The hospital services are operated by the government and non-government sectors. The hospitals in both sectors have improved in terms of facilities, technical and support services over the years by adding new departments and diagnostic equipment, as well as providing continuous professional training.

3.4.1 Hospital facilities:

There are (76) hospitals in Palestine; (51) in West Bank and (25) in Gaza Strip, with total number of (5,108) beds in government and non-government hospitals; (60%) in West Bank and (40%) in Gaza Strip. (74.5%) of them are general beds, (16.1%) specialized beds, (3.3%) rehabilitation beds and (6.5%) maternity beds. In Palestine, there are (12.6) beds per 10,000 of populations; (12.2) bed in West Bank and (13.3) bed in Gaza Strip.

Figure (20) Distribution of Hospital Rate per 100,000 of populations, and Number of Beds per 10,000 Populations, by Governorate, Palestine, 2010

3.5 Laboratories and blood banks:

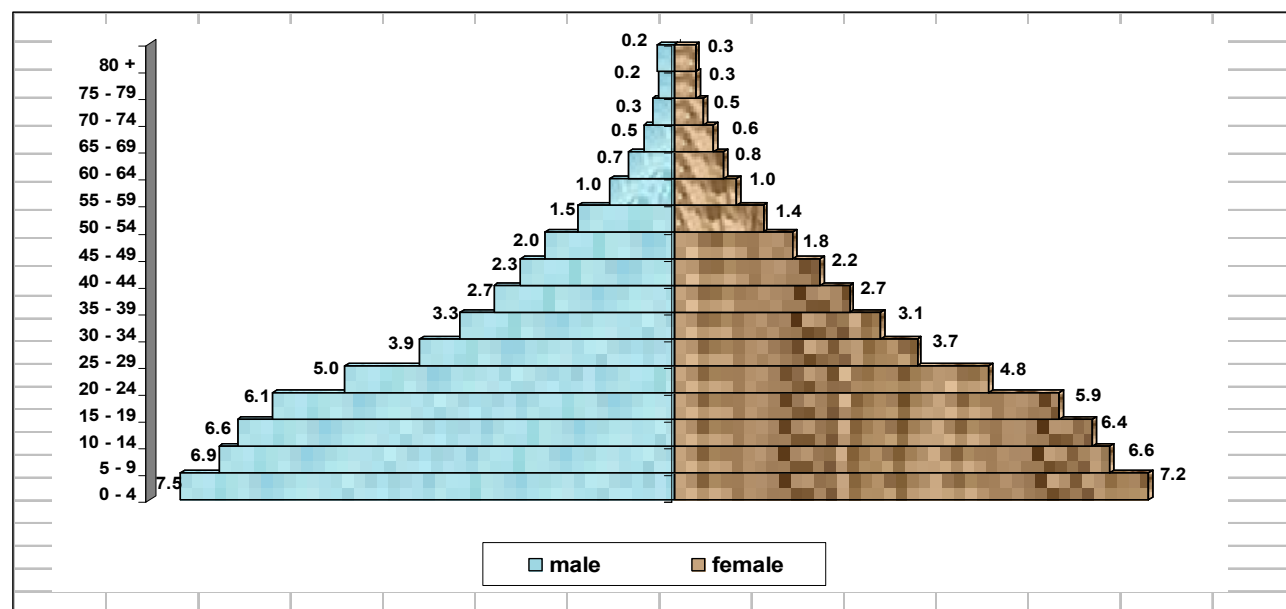

Table (5) Distribution of Laboratories According to MOH Classification, Palestine, 2010

District	Central	Medium	Terminal	Total
West bank	2	12	133	147
Gaza Strip	2	11	38	51
Palestine	4	23	171	198

3.6 Health Finance:

The actual expenditure of the MOH in 2010 was (1,233,976,526) NIS. The salaries were (43%) of the total expenditure.
